

THE RUGBY FIVES ASSOCIATION

ADDITIONAL POINTS COMPETITION FORMATS

OPEN ADDITIONAL POINTS COMPETITION:

This Competition is excellent for giving the lower Ranked Player(s) points start so if for example you have 6 players and out of the draw Player ranked Number 2 is drawn to play Number 7, you as the Organiser can decide to start the game by giving Number 7 say 5 points, therefore, the Scoring starts: Player 2 serves and player 7 receives, the score is 5 points to 0. Every match is assessed and scored separately.

Organisers may need help making the decision on the additional points to give the players.

SEALED ADDITIONAL POINTS COMPETITION:

Another way of organising this type of competition is to not let the players know the additional points until the end of the game.

These formats can help both the lower ranked player to win a competition and at the same time help the higher ranked player improve their concentration levels, having to play for every point.
